

How to download your Checkmyfile credit report

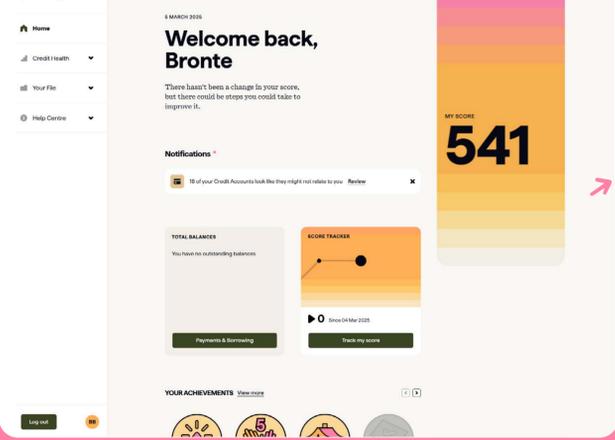

Checkmyfile

01

Step 1

Once you've logged into your account, you'll land on the homepage - it will look similar to the image on the right.

Scroll to the bottom of the homepage and click 'Print/save my file'.

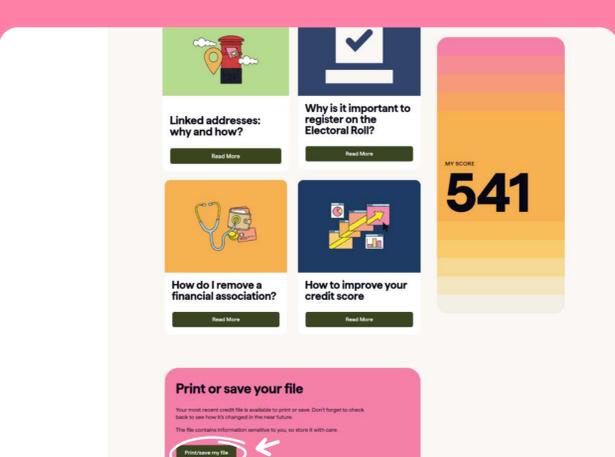

Checkmyfile

02

Step 2

Once you've scrolled to the bottom of the page, look for the pink block and click the 'Print/save my file' button to display the print options.

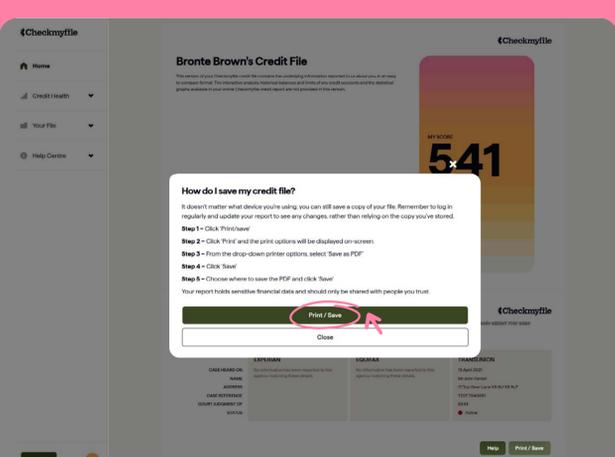

Checkmyfile

03

Step 3

After clicking 'Print/save my file', you'll see this screen.

Next, click the 'Print/save' button.

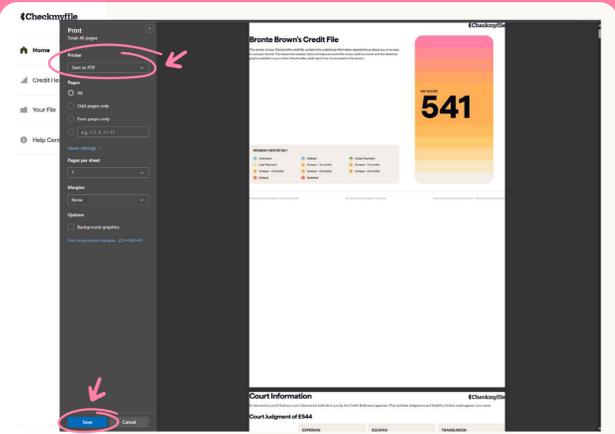

Checkmyfile

04

Step 4

From the print options shown in the drop-down menu, select 'Save as PDF' and then click on the 'Save' button.

(Note this screen may look slightly different depending on what device you are using.)

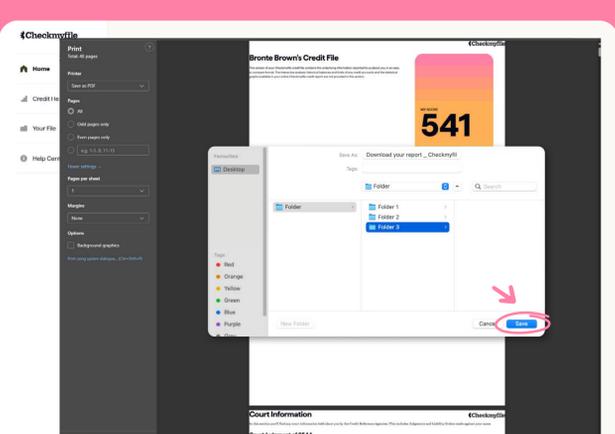

Checkmyfile

05

Step 5

Choose where to save the PDF and click 'Save'.

(Note this screen may look slightly different depending on what device you are using.)

Checkmyfile

06

Step 6

Your Checkmyfile credit report will now be saved on your device as a PDF.

Every score has potential

At Checkmyfile, we don't think you should be defined by a number. We believe everyone deserves the opportunity to take steps forward and achieve every goal they set out to.

The number is just the beginning. With the information your credit reference agency provides in one easy-to-see place on your Checkmyfile dashboard, we can help you identify actions to take and changes to make to help you raise it or maintain it.

Who we are
We're the credit health company moving lives forward. Whatever your goal is, we're here to help you build habits and take steps towards better credit.

What we do
We present clear paths to progress. Giving you the information to know exactly where you stand, and identifying actions which get you growing in the right direction.

How we do it
By collating up to 6 years of history from all three main UK credit reference agencies - Experian, Equifax and TransUnion - we create the most detailed, confidential credit report on offer.

Thankyou
